ZOOMLION MINI-EXCAVATOR

INDUSTRY LEADING ENGINE

Famous brand engine with three-vortice combustion system (E-TVCS); Mechanical speed regulation; High power, sufficient power reserve, fuel saving.

THE NEW-GENERA- TION OF ZOOMLION MAIN PUMP

The 45cc large-displacement main pump is combined with the large-torque, high-power reserve engine to achieve low fuel consumption and high work efficiency

VERSATILE ZE36GU

Versatile ZE36GU has powerful performance and features, which can easily meet customer needs. A high configuration model is equipped with a breaker plumbing, a quick coupler plumbing, and multiple attachment plumbings, and allows the user to control the plumbing with a switch on the joystick for easier operation.

ZERO-TAIL SWING

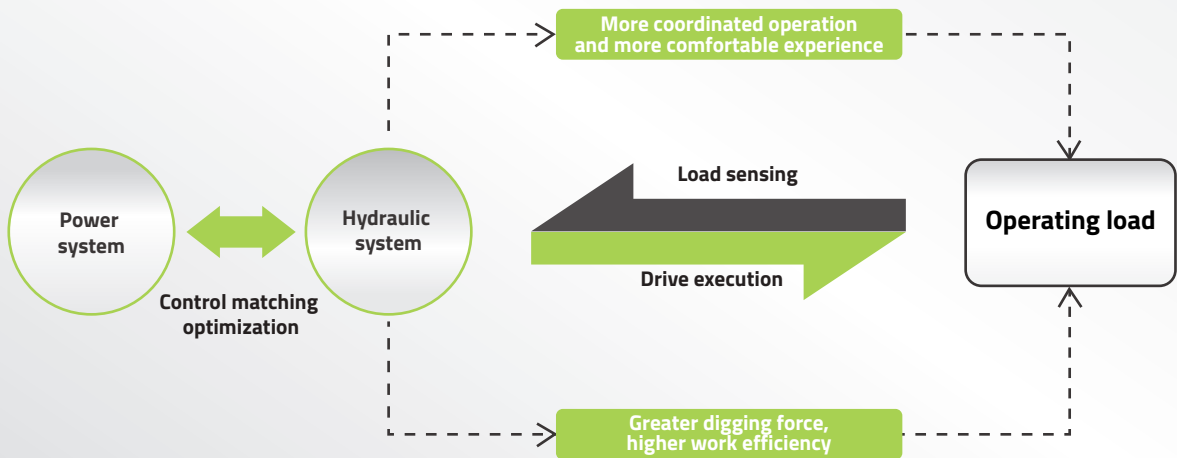

One of ZE36GU's highlights is zero tail swing, its radius of swing will not exceed the width of the track in the full expanded state.

This design means that it can work in narrow spaces and on busy roads, not limited by space.

LOAD SENSING SYSTEM

It can provide and distribute the flow according to the needs of the system, which meets the requirements of the actuator speed regulation and compound action, where the work efficiency is higher than that of the three-pump throttling system.

CONSIDERATE DESIGN

A step tread is installed for driver to easily get in the cab.

LARGE SPACE DESIGN

It enjoys spacious legroom, where operating will not be limited by space. The entrance also features large size for drivers to easily get inside and outside. The room is not mini in this mini-excavator.

FATIGUE-REDUCING DESIGN

The armrest adopts stepless adjustment design. You can adjust the height as you wish. All drivers' needs will be satisfied.

CONTROL PANEL

The LCD instrument panel provides key control. The user-friendly operation panel is not only full of technology, but also retains the physical key touch feeling. The menu bar on the right allows you to view key information such as engine speed, coolant temperature, and fuel level.

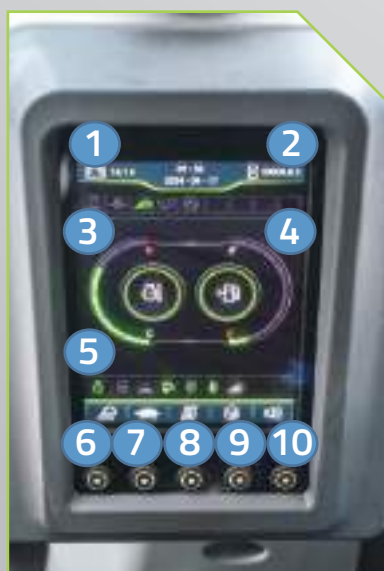

BABY-CARING LEVEL AIR CONDITIONER

The machine is equipped with ZOOMLION self-developed new air conditioning system, with heating and cooling air conditioning functions and internal and external circulation system, providing adequate air volume for better comfort.

MULTIFUNCTIONAL JOYSTICK FOR A HIGH-CONFIGURATION MACHINE

The Multifunctional joystick of a high configuration machine can better assist customers in controlling various attachments to complete various tasks.

1. Battery voltage	2. Working hours
3. Hydraulic oil temperature	4. Fuel level
5. Fault warning	6. Light
7. High and low speed switching	8. Menu bar
9. Operation menu	10. Alarm

HIGH RELIABILITY

The working plumbing is close to the upper part of the boom to avoid bumping into the plumbing during operation. Our design philosophy is to ensure equipment safety and build trust with customers.

The dozer plumbing is equipped with a protective plate to cope with difficult working conditions, protecting the cylinder and line at the same time.

OPEN INSPECTION

By opening the side door on one side, you can easily check the cooler, hydraulic oil, safety switch and other projects.

ONE-STOP MAINTENANCE

To open the whole tail covering piece, you only need to gently press the lock and rotate the buckle. All maintenance parts are within reach, where maintenance space is large, and the maintenance method is simple. It greatly saves the maintenance time and increases the work efficiency.
